Réforme des subventions des énergies fossiles	(In French - translation available on site in Arabic and English) Rassemblant des représentants de haut niveau provenant de pays et régions de la Francophonie, cet événement parallèle s'avère un dialogue essentiel pour le partage des meilleures pratiques et des enseignements tirés par les administrations ayant effectué une réforme partielle ou totale de leurs subventions aux énergies fossiles. L'auditoire sera ainsi informé par des participants qui font activement partie des efforts internationaux à cet égard grâce au partage d'information au sujet de leurs pratiques de mise en œuvre de réformes des subventions aux énergies fossiles. L'objectif est aussi de mettre en lumière les synergies possibles entre une telle réforme, d'une part, et les investissements dans les énergies renouvelables, le transport en commun et l'efficacité énergétique, d'autre part.
