IISD Experimental Lakes Area (IISD-ELA)

ESSAY CONTEST

How can we improve Canada's fresh water?

Are you a high school student (Grades 8-11) in Canada, who is interested in saving our freshwater supplies?

IISD Experimental Lakes Area (IISD-ELA) wants to hear from you!
The world's leading whole-lake freshwater experimentation site is asking you to come up with science-based solutions for Canada's bodies of fresh water.

Canada is home to 20 per cent of the world's fresh water.
In celebration of *CANADA'S 150TH ANNIVERSARY* we want to hear from high school students about the best ways we can continue to sustainably manage our fresh water for the next 150 years.

TWO INDIVIDUAL WINNERS
will be selected to attend the Blue Cities Conference in Toronto on May 19, 2017!

ONE WINNING SCHOOL
will win the chance to send two students to a two week IISD-ELA course in 2017!
